After Sales Service

Inspections and revisions of equipment on regular basis are the key factors for **effective production process and high quality of products.**

In such a way downtime and therefore expensive loss of production is eliminated. **At the same time the life-cycle of equipment is prolonged.**

Together with our competent partners we ensure reliable, flexible and efficient after sales service worldwide:

- supervised installation
- commissioning
- maintenance
- repair
- overhauling
- inspection
- inventory of machinery components

WKB professionals support you via **remote maintenance or directly in your plant.**

Your advantages:

- professional support
- rapid help thanks to permanent availability
- avoidance of downtime
- reliable and efficient production
- competitive advantage thanks to impressive quality and high productivity of equipment

reliable service for ongoing production

Spare and wear parts supply

WKB Systems GmbH offers prompt and reliable supply of spare and wear parts.

All spare parts supplied are the subject of strong quality control and always meet international requirements.

Our wide experience in export outside the EU simplifies the import procedure for our customers.

Spare parts are usually installed by customer's personnel. The installation could be also carried out by WKB specialists if necessary.

Thanks to large quantities of spare parts bought directly from the manufacturer we are able to offer wholesale prices to our customers.

Use this price advantage for efficient production in your plant!
